

FOR IMMEDIATE RELEASE:

**World Tour Dates
Announced for ROAM**

Vancouver, B.C. March 23, 2006 - Following a world premiere in Monterey, California on April 7th during the Sea Otter Classic and the Whistler screening April 16th as part of the TELUS World Ski and Snowboard Festival, dates have just been announced for the subsequent world tour of ROAM, the new mountain bike film from The Collective.

Commencing April 17th ROAM is due to be shown in over fifty locations worldwide during the months of April and May. Available online at www.thecollectivefilm.com/roam, the ROAM world tour schedule thus far includes stops in nine countries on three continents. Further dates will soon be added and updated to the website.

“The interest from everywhere has been amazing, with so many people excited to see how we’re going to follow-up on the last film,” says Darcy Wittenburg of The Collective. “We can’t wait to kick-off the tour and hear how people react to watching the film in all these different places”. ROAM is the highly anticipated second mountain bike film from The Collective, who released their first film, self-titled *The Collective*, almost two years ago.

ROAM is sponsored by Specialized, Adidas Eyewear, Helly Hansen, Manitou, Saint, Bike Magazine, Bontrager, Dakine, New Belgium Brewing, and the Whistler Mountain Bike Park. The film will be released on DVD in early May. It will be distributed worldwide by Specialized, and several other distributors.
